# 100% PLACEMENT GUARANTEE

LetsUpgrade and ITM Skills University have partnered with more than 700 companies to streamline the process of job placements for our candidates.

Upon successfully completing our program, our students gain automatic eligibility for lucrative job opportunities due to the contemporary skills they acquire. Students will have the opportunity to build an impressive project portfolio that highlights their abilities.

Our "100% Placement Guarantee" clause reflects our unwavering confidence in the competence of our program and corporate team to secure enticing job offers for our students.

## Minimum Package - 8 LPA\*

### Companies Hiring

# Traditional Education vs ISU x LetsUpgrade

	Traditional Education	ISU x LetsUpgrade 
Curriculum	Outdated	Students are ready for 2027 & beyond with real-world curriculum
Instructors	No Industry Experience	Working for top tech companies
Internship	Internships aren't supported	One-year paid internship required
Assignments	Theoretical written papers	Coding 40+ apps and products
Mentorship	No dedicated guidance	Monthly 1-1 sessions with Industry Professionals
Employability	Has to undergo extra training	Ready to work at Top Tech Companies
Job Role	Junior SDE	Senior SDE
Soft skills	One outdated Subject	Every Semester 100 Hours for softskills program
Business skills	Nothing to talk about	Learn everything of business from Sales to HR as this is must for Future leader
Entrepreneurship	Maybe 1-2 seminars	A 60-hour subject with a pitch to VCs as the final step
Placement Bootcamps	No dedicated Track	350+ Hours of dedicated Revision, and Interview Prep

# WHY CSE?

***“4/5 emerging jobs in INDIA are going to be from computer science field”***

**- World Economic Forum**

***“Every year, 15 lakh engineers graduate in India, but only 15% get employed. Out of these 15%, only 2% get packages that exceed 8 LPA, and all of these 2% graduates are from computer science”***

**- NASSCOM**

***Students pursuing CS engineering programs are likely to have a highly promising career trajectory by 2030.***

**- The Hindu**

## Huge Demand > Limited Supply

“Good quality engineering education is in high demand in India, but there is a limited supply of top engineering seats”

15 lakh students taking admission

15,00,000 : 10,000

Only 10k seats available in top colleges

## Planning to pursue Computer Science and Engineering (CSE) abroad ?

Career and quality of education will be good, but it'll cost more than 80 lakhs on a average going and studying abroad in any country

ITM Skills University with LetsUpgrade is launching

# B.TECH CSE PROGRAM

## Introducing the Best B Tech Computer Science Engineering Program

- Designed by **unicorn leaders** for future software developers
- Learn from **experienced developers** working in top tech companies
- Learn **one subject per sprint** of a week or 10 days to **focus on a particular skill**
- **Build projects** at the end of each subject to get continuous evaluation and build your **GitHub portfolio** alongside
- In two years, become a **full-stack developer** with frontend, backend, and cloud computing skills
- Get started with a **paid internship** in top tech companies
- Come back to campus to learn more **important and complex subjects** used to build real-time, highly scalable applications **like Zoom, stock trading apps, etc.**
- Specialize in artificial intelligence, machine learning, data science, blockchain, or AR/VR
- Get a **100% job guarantee** with a minimum salary of **8 LPA**
- ITM Skills University and LetsUpgrade have more than **700 companies** that offer placements
- With only 40 students in one cohort, the placement team will work with a **ratio of 40 students to 700 companies**, which will ensure amazing job opportunities for all the students

<https://luc.to/btechcse>

## Co-Created by *Unicorn* Founders, CTOs, VPs and Directors of Engineering

As curriculum gets outdated super soon, so we built this curriculum in collaboration with 25+ technology leaders who work with more than 5K+ software engineers in India.

# TOP 1% of Industry

## We're partnered with 13+ tech communities in Mumbai

Our students have exclusive access to Meetups, Hackathons, and Tech Events in mumbai because we believe meeting industry guys, talking to them, and networking with them will help them grow exponentially

# Syllabus

A Student will get ready for a specific job role each semester and build practical projects

<https://luc.to/btechcse>

## Semester 1

### Semester 1

"Go from 0 to 1 in Computer Science Basics"

#### Tech -

- \* Get started with Computer Science
- \* Competitive Coding

#### Softskills -

- \* Problem Solving
- \* Communication

#### Tools & Languages -

#### Projects -

## Semester 2

### Semester 2

"Become a Frontend Developer"

#### Tech -

- \* UI/UX
- \* HTML & CSS
- \* JavaScript
- \* ReactJS

#### Softskills -

- \* Teamwork
- \* Adaptability

#### Business -

- \* How to build a valuable product and price it

#### Tools & Languages -

#### Projects -

## Semester 3

### Semester 3

"Learn backend development"

#### Tech -

- \* SQL and NoSQL
- \* NodeJS
- \* ExpressJS
- \* Develop Fullstack Apps

#### Softskills -

- \* Time Management
- \* Teaching Students

#### Business -

- \* Selling anything and building operations

#### Tools & Languages -

#### Projects -

## Semester 4

### Semester 4

"DevOps and Cloud Computing"

#### Tech -

- \* Amazon Web Services
- \* System Design
- \* DevOps

#### Softskills -

- \* Leadership
- \* Placement Bootcamp - 1

#### Business -

- \* Economics and Customer Support

#### Tools & Languages -

#### Projects -

# Semester 5

Semester 5

"Earn your First Paycheck"

Internship -

- \* 6 Months of Paid Internship in Product or Service Based company

<https://luc.to/btechcse>

# Semester 6

Semester 6

"Create Mobile Apps and Manage Projects"

Tech -

- \* Mobile App Development
- \* Project Management
- \* Product Management

Softskills -

- \* Business Communication
- \* Resume Building
- \* Finding Jobs

Business -

- \* HR, Accounts, Investments

# Semester 7

Semester 7

"Master a Specialization: Unlock Your Expertise"

Tech Electives-

- \* Web3 (Blockchain)
- \* Data Science
- \* AR/VR
- \* Artificial Intelligence & ML

Softskills -

- \* Placement Bootcamp - 2

Tools & Languages -

Projects -

# Semester 8

Semester 8

"Second Paid Internship"

Internship -

- \* 6 Months of Paid Internship in Product or Service Based company

Softskills -

- \* Placement Bootcamp - 3

Tools & Languages -

Projects -

## Admission Process

# Student life at ITM Skills University

<https://luc.to/btechcse>

## Student Clubs

ITM Skills University offers student clubs for networking and extracurricular activities, including cultural, sports, music, drama, and photography clubs.

## 1:1 Mentorship

Individualized 1:1 mentorship with Experienced Industry Expert with insights & guidance to focused on your personal progress.

## Meetups & Conferences

Meetups & Conferences are events that bring like-minded people together to learn, network & collaborate.

## Hackathons & Open Source Contribution

Hackathons and Open source project contributions make our students gain practical experience, and collaborate with other like minded individuals

## Celebration & Community

Immerse yourself in campus culture and have fun, and forge lasting memories by participating in an array of exciting events such as concerts, sports games, festivals, and cultural celebrations.

# Live like a Developer while learning to become a Future Tech Leader 🔥
